PROFILE

I am a proficient individual who continually seeks new opportunities for news, knowledge, and maintains excellent relationships with colleagues in any job setting. Additionally, I create videos related to world programming where I provide tutorials on programming languages such as PHP, Python, and JavaScript.

CARRER OBJECTIVE

I am seeking my first position as a full-stack developer, aiming to provide innovative solutions for companies and individuals. I am passionate about utilizing my technological expertise to make a difference globally.

MY PROJECTS

fabiosantos99.github.io/Portfolionline

- Create a Vault that contains Euro, Dollar and Brazilian Real currencies made by Java Language
